

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	26-11-2025
Name	Yakshagaraj A G
Project Name	Online Bookstore
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

Functional Requirements – Online Bookstore

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Authentication	User Registration ● Login using JWT ● Password reset ● User profile management
FR-2	Book Browsing & Search	Browse books by category ● Search by title, author, or genre ● Filter books (price, rating, genre)
FR-3	Book Details & Reviews	View book description, price, and rating ● User can submit reviews ● User can view reviews from others
FR-4	Cart & Wishlist Management	Add/remove books from cart ● Add books to wishlist ● Move items from wishlist to cart
FR-5	Admin Book Management	Add/Edit/Delete books ● Manage categories ● Update stock/inventory
FR-6	Order Placement & History	Place order for selected books ● Payment simulation ● View past order history

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	Interface must be easy to use and understood by general users.
NFR-2	Security	Secure user data using JWT, bcrypt; encrypted communication.
NFR-3	Reliability	Orders, reviews, and user data must be processed reliably without loss
NFR-4	Performance	Book search results should load within 2 seconds.
NFR-5	Availability	Platform should provide 99.9% uptime.
NFR-6	Scalability	Should support large number of books and concurrent users.
NFR-7	Maintainability	Code structure must support easy updates and feature expansion
NFR-8	Compatibility	Should work across all major browsers and devices.
