Customer Problem Statement:

To define the core problems readers and book buyers face when trying to search, browse, and purchase books online, and use these insights to guide the development of the Online Bookstore.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A frequent book reader	Quickly find books based on my favorite genre or author	Most platforms have poor search or too many irrelevant results.	Filtering and categorization are not optimized	Irritated and discouraged from browsing further.
PS-2	A new user who wants to buy books online	Understand if the book is worth buying	Many websites do not show clear reviews	Platforms lack proper user engagement and review systems	Unsure and hesitant to purchase.
